Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Papers Received

Receipt is acknowledged of the applicant's amendment, response, petition for extension of time, and information disclosure statement, all received on 11 December 2003.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 11 December 2003 is found to be in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of Claims 18-26 under 35 U.S.C. 103(a) over Sawney *et al.* in view of Levy *et al.* is maintained.

The rejection of Claims 18 and 19 under 35 U.S.C. 103(a) over Purdue Research Foundation is hereby withdrawn.

Response to Arguments

Applicant's arguments filed 11 December 2003 have been fully considered but they are not persuasive.

Art Unit: 1615

In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

The applicant has argued against the *Levy et al.* reference by taking what the examiner has determined to be an overly narrow interpretation of the disclosure. The disclosure of *Levy et al.* states that it is preferred that the active agent be in a water-soluble form. Therefore, there is an implicit disclosure that an active agent may be used in the disclosed invention in a non-solubilized form, producing an operable species. Even non-preferred embodiments constitute prior art that may be applied to the pending claims. See MPEP § 2123. As such, it is the position of the examiner that drugs that are incorporated into the disclosed inventions of the prior art in a non-solubilized form would inherently be in a particulate form. The claims will remain rejected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1615

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
